

Special Pricing Commitment

Author: Melissa Parrinder<mparrinder@norpak.com>

May 2008

As we are all aware, the current economic situation in the material handling industry is very uncertain. Price increases and surcharges have become the order of the day, driven by increased steel costs and skyrocketing fuel prices. Many competitors have already announced surcharges of 4%, 5% or even 7%.

Norpak do not have a crystal ball but we do believe that in the long term, prices will not be going down. We want to help you feel more secure in committing to new equipment purchases.

For all new purchase orders received by Norpak (for Hytrol Equipment) prior to the close of business June 27th, Norpak will guarantee to hold the price regardless of economic changes! That's correct, for any new Hytrol equipment orders you will pay the published Hytrol price on our online store. No hidden cost increases, no surcharges, guaranteed! To be eligible for this price hold guarantee, the order must be processable when received by Norpak and it must ship prior to the end of 2008.

We believe this guarantee will create a competitive advantage in an uncertain economic environment. As always, we appreciate the opportunity to earn our position as your conveyor supplier of choice.
